Get Involved!

We are one Y – one organization created to serve those in need, we have one goal – to strengthen our communities and we are one community. We need your help to ensure the community is better for all. We have created a variety of ways for your company to get involved.

Everyone has something they can give...time, talent, resources and compassion. We would like to welcome your company to explore how it can get involved. With three key programs, we are sure there is a fit for your work family.

- **Corporate Membership Program**
- **Corporate Volunteerism**
- **Corporate Giving**

Corporate Giving

Annual Campaign

Each year, the Y raises funds through our Annual Campaign to fund Our Financial Assistance scholarship program. With your financial support, this allows the Y to bridge the financial gap for low-income individuals and families who cannot otherwise afford the full rate for our programs. A corporate donation is a great way to meet your company's philanthropic goals.

Grants/Foundation Support

Does your company have a foundation or grant program? Does your company seek to support the community? If yes, then we would like to know. Our organization's success depends on charitable gifts that can sustain, create and innovate new programs for the families and children we serve. We welcome the opportunity to explore how your company wants to give back and how we can partner in the process.

Sponsorships

Each year the YMCA produces events in each of the communities we serve. Each event provides an engaging experience to see the Y mission at work, provide the community with family friendly activities and generate awareness to the needs in our community. Each event offers the opportunity for sponsorships. Some of our signature events include a 5k and 10k fun run, golf tournament, and dinner & auction under the stars fundraiser. Sponsoring an event is a great way to promote your company as a community supporter.

Corporate Membership

The YMCA of Orange County has designed a Corporate Membership Program that encompasses financial and health benefits for your company. Our program supports company's by creating a healthier work environment, investing in the betterment of employees and maximizing company resources.

As a partner you will receive:

- NO ENROLLMENT FEES on all fitness memberships!
- 10% off membership fees (with a minimum 10 employees signing up).
- No registration fees on all child care services. Over 80 affordable, licensed before & afterschool child care programs on school campuses.
- 1-month open enrollment period for employees following official signed agreement.
- Unlimited access to 5 YMCA Locations in Orange County – fully-equipped and open 7 days a week.
- Membership and benefits include options for families, adult, adult plus, and couples.
- Certified Personal Trainers available to help meet personal wellness goals.
- Free KidZone Access: Our on-site child care while parents work out (for all **family** memberships).
- YMCA Member access to recreation, family events, and reduced fees for sports programs.

Benefits of YMCA Corporate Membership

- The Harvard Business Review reports that studies indicate that our mental firepower is directly linked to our physical regimen. And nowhere are the implications more relevant than to our performance at work. Cognitive benefits like: improved concentration, sharper memory, faster learning, enhanced creativity, lower stress and prolonged mental stamina are what you can expect as a result of incorporating regular exercise into your routine; not to mention your mood, which has serious implications for workplace performance if your job requires you to build interpersonal connections and foster collaborations.

Did You Know?

YMCA Corporate Membership Programs offer an opportunity to increase the health and well-being of employees and their families with affordable fitness and recreation options that build support networks and local communities. Much more than a fitness program, it's an investment in your employee's health and happiness; It's an investment in your organization's productivity, efficiency and future.

Corporate Volunteer Opportunities

We have established relationships with the community to bring your employees the opportunity to give the gift of their time, talent and resources. We select our partners by ensuring they align with our values and bring the needed services to the greater community.

Some programs we support include:

Essentials for Young Lives and Service Learning Donation Drive

Mothers and children are the fastest-growing segments of the homeless population. The Y partners with HomeAid and the Children and Families Commission of Orange County to raise essentials and awareness to support homeless families as they rebuild their life.

How you can help:

Participate by donating and conducting drives for essential care items like diapers, care products and food for homeless infants and toddlers.

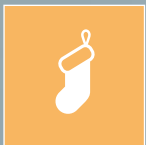

Backpack Drive

The YMCA's goal is to ensure that kids in our underserved communities are prepared to learn. Having the proper supplies allows children to feel confident that they can succeed in a classroom environment.

How you can help:

Participate by collecting backpacks and supplies at your office! You can also host backpack "stuffing parties"!

Stockings for the Troops

The Y partners with Words of Comfort Hope and Promise to help bring cheer to our troops overseas.

How you can help:

Participate by donating and conducting drives to collect items that will be stuffed into a stocking and sent to several troops overseas. The Y provides a box as well as collects all items that are donated.

Volunteer Custom Experiences

We welcome all volunteers! If you have a talent or need you would like to share with the Y, please let us know. We will work to develop experiences that fit your company's goals, needs and individual talents.
